# Vision V8

## *Integral solutions for vending*

The range Jofemar's Vision V8 is characterized by its large transparent front ensuring the best automated purchase experience to the end user.

Suitable for all types of products, regardless of their size and characteristics; they have an optional refrigeration unit as well as an elevator for fragile products, depending on the model.

Its adjustable tray system has been improved: non-metallic parts to avoid cuts, new tool-free dividers and adjustable channels according to the type of product. This results in faster set-up and efficient replenishment. Optimization of the machine's usable space is ensured.

Its anti-vandalism systems in coin inlet, structure, locking system, collection drawer or elevator ensure the durability of the machine and the reduction of costs due to losses.

Also, the new Vision V8 are more environmentally friendly; current European regulations require the reduction of pollutants, so the adaptation of the Vision V8 range to R290 gas makes it one of the most efficient on the market (Energy Efficiency D).

All this makes the V8 a premium line for vending, achieving cost reduction and providing a better shopping experience for the customer. Maximum profitability assured.

### STRUCTURE

- Modular cabinet structure treated against rust and corrosion.
- Closing with platen, three anchorage points and security lock.
- High-capacity cash box.
- Injected foam insulation system that guarantees efficient cooling and lower energy consumption.

### FEATURES

- Flexible setup and programming. Its channel adjustment system allows incorporating new products at any time without using tools.
- FIFO (First In First Out) System. Continues renewal with the freshest product. Product dispensing according to loading order.
- Intelligent self-adjusting motor torque for each type of product characteristics.
- Continuous performance self-testing.
- Automatic safety system that prevents the machine from selling products that are not suitable for consumption due to temperature and expiration date programming by selection number or channel.
- Programmable lighting on and off.

### CREDIT MANAGEMENT

- Jofemar compact coin collecting system.
- JF8 currency validator with the most reliable anti-fraud systems.
- Available with MDB or Executive vending protocols.

### PROGRAMMING

- General *in situ* programming via machine keypad and graphic display.
- Telemetry through J-SUITE. Includes reading of accounts, sales incidents, prices, programming options or e-mail in case of product out of stock.
- Storage and extraction of accounts.

### OPTIONS

- Banknote reader.
- Jofemar card/key reader or any MDB card reader.
- Microwave side column in master machines. Only works if the product has been removed from the main machine and its heating time is programmed independently.

VISION COMBOPLUS V8

8 trays of max. 7 channels

Optional cooling unit

With elevator

Optional cooling unit

Without elevator

VISION ESPLUS TOUCH V8

8 trays of max. 10 channels

Optional cooling unit

With elevator

**ComboPlus.** It provides perfect temperature control, making it the ideal machine for soft drinks in bricks, chocolates and other similar products. Includes elevator that deposits the product in the collection drawer at waist height without the need to bend down. No control unit is required.

**ESPlus.** Allows to significantly increase the number of channels and storage capacity by connecting to the main machine or to a side payment module. The versions can incorporate refrigeration group. Includes elevator.

**EasyCombo.** Its large capacity and refrigerated cabin, with different temperature zones, offer solutions for the sale of mass consumption products (snacks, soft drinks, sandwiches...) in a single machine. Its space/capacity ratio makes it the perfect choice.

**Satellite.** Is a complete solution for vending services characterized by its large capacity and refrigerated cabin. With a constant temperature, it can store and a wide variety of products (snacks, soft drinks, sandwiches...) in a single machine.

**ESPlus Touch.** Its large 43" screen as a display makes the shopping experience acquire other values seen until now. Its internet connection allows not only the dispensing of products like other vending machines, but also other purchase and reservation options.

**Control Unit .** System to control up to 4 satellite machines (Vision ESPlus and Vision Satellite) so that they can operate autonomously.

\*. This catalog is for information purposes only. For specifications of each machine, please refer to the technical data sheet of the model.

# COMBOPLUS

**ComboPlus V8**

*All in one*

The new Jofemar Vision ComboPlus V8 provides perfect temperature control. This makes it the ideal machine for soft drinks, snacks and other delicate products.

It includes an elevator to avoid product shocks, different optional payment systems and a practical capacitive keypad.

Its innovative multicolor display facilitates the user's shopping experience by making it more intuitive.

# EASYCOMBO

**EasyCombo V8**  
*Total control*

Jofemar's Vision EasyCombo V8 allows the connection of up to 3 satellite modules, significantly increasing the product load.

The multivendor system of the renewed EasyCombo V8 allows the selection products in the form of shopping list or individually.

Its large collection drawer allows the dispensing of different products, small and larger formats.

# ESPLUS

**ESPlus V8**

*Maximum capacity*

Jofemar's Vision EsPlus V8 incorporates a high capacity elevator as standard, allowing the dispensing of delicate products.

The different versions in ESPlus offer different delivery options:

- **Standard**;
- **TE** (elevator and window transparent);
- **WE** (transparent elevator and illuminated window perimeter).

Its straight edges and display-free front make it the most sober and elegant machine in the Vision range.

# SATELLITE

The Jofemar Vision Satellite V8 optimizes the use of its interior space, adapting its trays and channels and channels to the formats of the different products to be dispensed.

Its folding tray system significantly improves the replenishment time and facilitates is refilling.

**Satellite V8**  
*Better performance*

# TOUCH

**ESPlus Touch V8**  
*Shopping experience*

The greatest distinguishing feature of the ESPlus Touch V8 is its display; a large 43" touch screen that facilitates the user's shopping experience by making it more intuitive.

Its double lock for access to electronic elements and storage area guarantee maximum security for the new R290 gas regulations.

Its computer and internet connectivity make it a powerful tool not only for vending, but also for online reservations, information points, advertising videos, etc.
