

Vision

Big-Box

Maximum storage
capacity

Vision Big-Box is one of the most versatile cigarette machine models in the market. Fitted to vend whole cartons, individual packets, tobacco bags, cans or any type of packed tobacco, it offers unique advantages over any other model.

The Vision models feature an exclusive product storage and extraction system that can be adapted, without any tools, to almost any type of package and size. This innovative and flexible design allows maximum capacity and turns the complete tray surface in useful space for storage and sell.

CAPACITY

- Cartons: 227
- Packs: 1,848
- Bags: 918
- Allows combining all these products depending on customer's requirements.

FEATURES

- Lineal loading system without coil springs.
- Continuous performance self-testing.
- Remote age control.
- Flexible setup, and programming without tools.
- LED lighting system with on/off programming.
- Correct sale detection with photocells.
- Energy consumption: 40w.

SIZE

- Height x width x depth: 1,825 x 800 x 935 mm.
- Weight: 297 kg.

STRUCTURE

- Modular cabinet structure treated against rust and corrosion.
- Vandal-proof security lock with three anchor points.
- High-capacity cash box with lock and optional auto-locking during extraction.

CREDIT MANAGEMENT

- Innovative Jofemar coin mechanism with five return tubes for five different coin values.
- Anti-fraud coin validator with parameter analysis, such as diameter, metal composition and magnetic property. Features anti-thread system.
- Optional banknote reader.

The Big-Box model has a capacity of 227 cartons.

PROGRAMMING

- General on site programming of all the machine functions.
- Compatible with the EasyFlash programming handheld terminal, with the possibility of creating machine backups and cloning, creating databases and delivering stock control and accounting.
- Telemetry programming option.
- Dynamic programming that allows grouping up keys and channels in different setups.

OPTIONS

- Telemetry by GSM or GPRS modem using Jofemar Vending Track software. Includes data accounting, sales, incidences, prices, programming options or SMS to mobile phones in case of sold out products.
