B L U E T E C

State-of-the-art technology,
elegant design

The Bluetec range has been developed to guarantee an added-value service in establishments, achieving a perfect integration of maximum capacity, great number of selections and an innovative design, with a finish of stainless steel and glass, which provides an elegant and modern image. Its front panel, with a graphic touchscreen and LED lighting in the selection buttons and the product exit, provides a striking new look, at the same time it allows a simple and clear presentation of the brands. This ensures a more intuitive usage and improves, without a doubt, the purchasing experience.

VANDAL-PROOF LOCK

FEATURES
- Vertical column loading system to speed up loading.
- Graphic display with animations, texts and designs, updatable through USB.
- Independent detection of sold out products by channel.
- Continuous performance self-testing.
- Remote age control.

STRUCTURE
- 1.5mm-thick steel-plate cabinet treated against corrosion and rust.
- Front in smudge-proof stainless steel and tempered glass.
- Internal vandal-proof lock and three anchor points.
- Cash box with lock and optional auto-locking during extraction.
- Energy-saving LED lighting in the front panel, selection buttons and delivery drawer.
- Built-in casters for ease of displacing.

CREDIT MANAGEMENT
- Innovative Jofemar coin mechanism with five return tubes for five different coin values.

- Anti-fraud coin validator with parameter analysis, such as diameter, metal composition, magnetic property. Features anti-thread system.
- Jofemar banknote reader.

PROGRAMMING
- General onsite programming of all the machine functions.
- Optionally, it can be programmed with the EasyFlash hand terminal. Database creation and stock control and accounting.
- Telemetry programming option.
- Dynamic programming that allows groping up keys and channels in different setups.
- DEX protocol data extraction (optional).

OPTIONS
- Electronic price display for each selection.
- Telemetry by GSM or GPRS modem using J-Suite. Price and working mode remote programming; alerts when the product is sold out.
- Lockable keypad.
