Goya

An elegant and functional range

The Goya range stands out for the elegance of its shape and its wonderful finishing, that allows its integration in any environment. As well as optimised capacity and volume, this range features a double security door, vandal-proof lock and a fluid-proof keyboard. Thanks to an external key access, changing the product decals has never been that easy. Available in different configurations depending on the number of selections, capacity and channels, this range is highly configurable in order to better fit your business.

FEATURES
· Vertical column loading system to speed up loading.
· Graphic display with animations, texts and designs, updatable through USB.
· Independent detection of sold out products by channel.
· Continuous performance self-testing.
· Remote age control.

STRUCTURE
· 1.5mm-thick steel-plate cabinet treated against rust.
· Internal vandal-proof lock and three anchor points.
· High capacity cash box with lock and optional auto-locking during extraction.
· Energy-saving LEDs lighting in the front panel, selection buttons and delivery drawer.
· Fluid-proof selection keypad.
· Independent locks to access the cabinet or the front image and the product decals.
· Built-in casters for ease of displacing.

CREDIT MANAGEMENT
· Innovative Jofemar coin mechanism with five return tubes for five different coin values.
· Anti-fraud coin validator with parameter analysis, such as diameter, metal composition and magnetic property. Features anti-thread system.
· Jofemar banknote reader (optional).

PROGRAMMING
· General onsite programming of all the machine functions.
· Compatible with the EasyFlash programming terminal, with the possibility of cloning machines, creating databases and delivering stock control and accounting.
· Telemetry programming option.
· Dynamic programming that allows grouping up keys and channels in different setups.

OPTIONS
· Telemetry by GSM or GPRS modem using the Jofemar Vending Track software. Price and working mode remote programming; alerts when the product is sold out.
· Multiple channels to vend more products.
· Key delivery kit through a variable code without opening the machine.
